

DEPLOY IN KUBERNETES CLUSTER

Date	02 November 2022
Team ID	PNT2022TMID17944
Project Name	Smart Fashion Recommender Application

KUBERNETES WORKER NODE:

The screenshot displays the IBM Cloud Mycluster management console. The top navigation bar includes the IBM Cloud logo, a search bar, and user account information. The left sidebar shows navigation options: Overview, Worker nodes (selected), Worker pools, and DevOps. The main content area shows the 'Worker nodes' section for a cluster named 'Mycluster'. It includes a table with columns: Name, Status, Worker pool, Zone, Private IP, Public IP, and Version. A single worker node is listed with ID '0000008e', status 'Normal', and version '1.24.6_1541'. The interface also features a 'Kubernetes dashboard' button and an 'Add' button for new nodes.

Name	Status	Worker pool	Zone	Private IP	Public IP	Version
0000008e	Normal	default	Milan 01	10.144.217.55	159.122.179.192	1.24.6_1541

KUBERNETES DEPLOYMENT:

The screenshot displays the Kubernetes dashboard interface. At the top, the 'kubernetes' logo is on the left, a 'default' namespace selector in the center, and a search bar on the right. Below the header is a blue 'Workloads' navigation bar. A left sidebar lists various Kubernetes resources: Workloads (with a count of 1), Cron Jobs, Daemon Sets, Deployments, Jobs, Pods, Replica Sets, Replication Controllers, and Stateful Sets. Under the 'Service' section, it lists Ingresses (1), Ingress Classes, and Services (1). Under 'Config and Storage', it lists Config Maps (1) and Persistent Volume Claims (1). The main content area is divided into two sections. The top section, 'Workload Status', features three large green circles, each representing a resource type: Deployments, Pods, and Replica Sets. Each circle is accompanied by the text 'Running: 1'. The bottom section, 'Deployments', contains a table with the following data:

Name	Images	Labels	Pods	Created ↑
app-dep	Show all	-	1 / 1	an hour ago

KUBERNETE SERVICE PODS:
